Data & AI enthusiast with strong skills in Python, data analysis, SQL, and applied machine learning. Completed trainings in Machine Learning (NTI), Generative AI & LLMs (NVIDIA DLI), and Data Science & AI (DEPI). Passionate about building data-driven solutions, continuous learning, and applying AI to real-world problems.

Education

Student at the **Faculty of Computers and Information**, Tanta University | Third year | Grade: Excellent

Certifications & Training

- **National Telecommunication Institute (NTI)** | Machine Learning for Data Analysis Track
- **NVIDIA DLI – Generative AI, ITI & NVIDIA** | LLMs & Generative AI fundamentals
- **NVIDIA DLI – Building LLM Applications with Prompt Engineering (2026)**
- **Pioneers of Digital Egypt Initiative (DEPI)** | Data Science & Artificial Intelligence Track
- **Information Technology Institute (ITI)** |Summer Training |Graphic Design Track

Volunteer and student activities

- **UCCD** – Media & Business Development Department.
- **ICPC Community** – Public Relations.
- Volunteer in the **Life Makers family**, it department.

Technical skills

- **Programming Languages:** Python, C++
- **Data & ML:** Machine Learning, Deep Learning, Data Analysis, SQL Database
- **Computer Science:** OOP, Algorithms, Problem Solving

Skills

Communication , Leadership , Analytical Thinking , Teamwork ,

Motivation of Others , Fast Learner
